

New Toyo Sustainability Bulletin – Q4

Opening Message

Welcome to the Q4 New Toyo Sustainability Bulletin.

In this issue, we highlight the latest on CDP, KPI performance, customer updates, I-RECs and what is on the horizon.

We are making good progress with the support of everyone.

Together, let's shape a more sustainable tomorrow

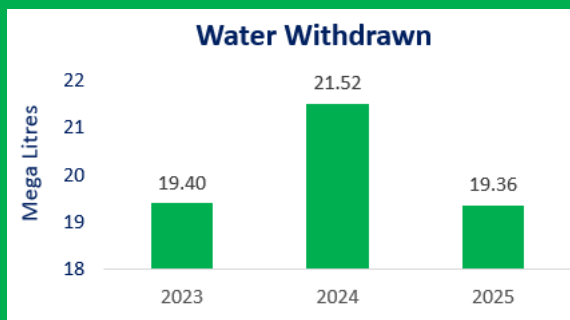

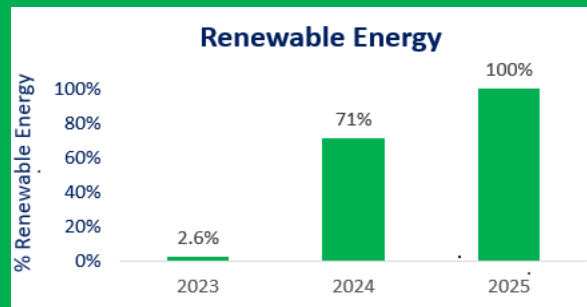

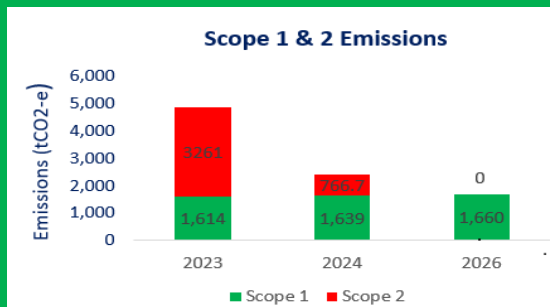

CDP - 2025

2025 ratings:

- Climate B
- Water C
- Forests C
- Same ratings as 2024

Improvement in multiple criteria in 2025

Sustainability KPI's - 2025

We are making good progress – Let's keep focussed

**Innovating Packaging Excellence to
DRIVE SUSTAINABLE GROWTH**

New Toyo Sustainability Bulletin – Q4

Customer Update

- PMI have established a monthly Sustainability forum to:
 - Review performance versus targets
 - Progress against initiatives
- BAT now include sustainability metrics in their supplier assessment – the weightage is 30%

I-RECs what are they?

- I-RECs (International Renewable Energy Certificates) represent 1 megawatt-hour (MWH) of electricity from renewable source
- **Verified proof** that renewable electricity was produced and added to the grid
- Help companies **reduce reported scope 2 emissions**
- Each certificate is **tracked, uniquely numbered and retired**

What is on the horizon?

1. SBTi – Target's validated Q1 '26
2. PCF training Q1 '26
3. KPI Glide paths by unit
4. Solar panels Dubai – Q1 '26
5. Deep dive on Scope 3 emissions
6. Publish Annual Sustainability Report – Q2 '26

Did you know?

- **Water wasted** each year is enough to fill 86 million Olympic swimming pools
- **2 Billion tonnes** of waste is generated globally each year
- **Recycling 1 tonne** of paper **saves 17 trees**
